Description

The Edelco-EDU435022 universal diamond blade is a high-quality tool designed to meet the demands of professionals in the construction industry. With a diameter of 350 mm and a 22 mm bore, this segmented blade offers superior performance when cutting construction materials. Its laser welding ensures maximum safety and efficient cutting, both wet and dry, making it a versatile choice for a variety of applications.

This blade is ideal for use on angle grinders, table saws, and gasoline-powered machines, allowing for effective work on materials such as concrete, aggregate concrete, and semi-hard stone.

Its segmented design ensures excellent cutting speed and long durability, resulting in optimal value for money.

- **Use:** Universal for construction materials (Yellow)
- **Performance class:** 4
- **Standards:** oSa, EN 13236
- **Quality:** Superior, identifiable by its blue mark and 4 stars
- **Applications:** Construction materials, concrete, aggregated concrete, semi-hard stone
- **Cutting type:** Dry and wet
- **Welding:** Laser
- **Compatibility:** Angle grinders, table saws, gasoline-powered machines
- **Durability:** Efficient and economical
- **Cutting speed:** Excellent

Specifications

High	0,80
Width	35,70
EAN	4255705101910
Manufacturer	Edelco
Weight (kg)	1,9420
Depth	35,70
