Description

The Erizo-LDBTB10 triangular coarse mechanic's file is an essential tool for precision work on metal and wood. Designed with a triangular cross-section, this file allows optimal access to corners and sharp angles, facilitating the finishing of threaded teeth, milling cutters, and flat surfaces. Its triangular shape, with equal sides that taper towards the tip, ensures efficient performance in a variety of applications. The double cut on all three sides provides superior abrasiveness, allowing for fast and effective roughing.

The file handle is made of two components that offer a soft and comfortable grip, reducing fatigue during prolonged use.

This ergonomic design not only improves the user experience but also ensures precise control with every movement.

- **Shape:** Triangular
- **Chip Type:** Double
- **Length:** 10 inches
- **Handle:** Bi-material with soft grip
- **Use:** Ideal for filing corners and sharp angles
- **Applications:** Refining thread teeth and milling cutters
- **Surfaces:** Effective on metal and wood
- **Design:** Sides taper towards the tip
- **Durability:** High wear resistance
- **Control:** Precise handling
