Description

The Erizo-LDBMCF6-Lima file is a precision tool designed for efficiently filing flat and concave surfaces. Its half-round shape and segmented cross-section allow for detailed and controlled work, facilitating access to difficult areas. The file's design features a width and thickness that taper slightly towards the tip, providing greater versatility in finishing different materials. With double-cutting on both sides, this tool ensures optimal performance and long durability, allowing for efficient roughing and a fine finish in a variety of applications.

- **Shape:** Half-Round
- **Cutting Type:** Double
- **Dimensions:** 6 inches in length
- **Handle:** Bi-material with soft grip
- **Use:** Ideal for flat and concave surfaces
- **Design:** Circular segment-shaped section
- **Thickness:** Tapers towards the tip
- **Versatility:** Suitable for various materials
- **Durability:** High wear resistance
- **Hanging:** Included for convenient storage
