Description

The Erizo-LDBCE10 medium-fine square mechanic's file is an essential tool for precision work creating and fitting keyways and square openings. Its design features a square cross-section that tapers towards the tip, allowing optimal access to tight spaces and the ability to finish right angles. With double cuts on all four sides, this file offers superior performance, ensuring efficient roughing and a fine finish. It is two inches shorter than the flat version, making it ideal for tasks requiring greater control and maneuverability.

The two-component handle provides a soft, comfortable grip, facilitating use for extended periods without causing hand fatigue.

This tool is perfect for professionals and hobbyists seeking precision and durability in their mechanical and woodworking projects.

- **Shape:** Square
- **Chip Type:** Double
- **Length:** 10 inches
- **Section:** Tapers towards the tip
- **Number of Teeth:** Same as the flat chisel
- **Use:** Ideal for keyways and right angles
- **Handle:** Bi-material with soft grip
- **Chip:** Double on all four sides
- **Applications:** Mechanical and woodworking
- **Control:** High maneuverability
