ULTIMATECUT 4S HSS conical countersink Ø 19 mm, DIN 355, angle 90° - RUKO

Brand: Ruko

Reference: TUR 102880

The ULTIMATECUT 4S tapered countersink (Ø 19.0 mm) is designed for optimal performance in a variety of applications. With four cutting edges and an uneven pitch, it delivers smooth, precise cuts in steel, aluminum, and plastics, increasing tool durability.

[View product online](#)**Description**

The ULTIMATECUT 4S countersink (Ruko-102880) is a high-performance tool designed to deliver exceptional results in a variety of machining applications. Its innovative uneven pitch redefines countersinking, enabling smooth and quiet cutting action that minimizes vibration and ensures perfectly circular holes. Load distribution across its four sharp cutting edges reduces axial and radial forces, extending tool life and minimizing wear.

This countersink is versatile and can be used efficiently with cordless screwdrivers, drills, pillar drills, and CNC machining centers. Its ability to drill holes up to Ø 40.0 mm with handheld machines is a standout feature, enabling previously impossible applications.

The range of sizes, from Ø 10.4 mm to Ø 40.0 mm, adapts to various needs in metal and plastics working.

- **Number of cutting edges:** 4
- **Coating:** uncoated
- **Clamping surface:** 3-way spindle clamping
- **Cutting direction:** right-hand
- **Material:** HSS
- **DIN:** 335
- **Countersink angle:** 90°
- **Main application:** Steel 900 N/mm², Steel

Specifications

EAN	4007140390073
Manufacturer	Ruko
