ULTIMATECUT 4S HSS conical countersink Ø 31 mm, DIN 355, angle 90° - RUKO

Brand: Ruko

Reference: TUR 102885

The ULTIMATECUT 4S HSS DIN 355 tapered countersink, with a 31.0 mm diameter and 90° angle, offers smooth and quiet cutting. Ideal for steel, aluminum, and plastics, it is compatible with hand drills and CNC machines, ensuring high durability.

[View product online](#)**Description**

The ULTIMATECUT 4S tapered countersink (Ruko-102885) is a high-performance tool designed to deliver exceptional results in a variety of machining applications. Its innovative uneven pitch redefines countersinking, providing a smooth and quiet cutting action that minimizes vibration and ensures a perfectly circular finish. Thanks to its four sharp cutting edges, loads are efficiently distributed, reducing axial and radial forces and thus extending tool life.

This countersink is versatile and can be used with cordless screwdrivers, drills, pillar drills, and CNC machining centers. It allows for drilling holes up to Ø 40.0 mm, a diameter previously impossible with hand tools.

The range of sizes, from Ø 10.4 mm to Ø 40.0 mm, adapts to different drilling needs, making it suitable for all types of drills.

- **Number of cutting edges:** 4
- **Coating:** Uncoated
- **Hold surface:** 3-way spindle
- **Cutting direction:** Right-hand
- **Material:** HSS
- **DIN:** 335
- **Countersink angle:** 90°
- **Main application:** Steel 900 N/mm², Steel

Specifications

EAN	4007140390110
Manufacturer	Ruko
