

Product sheet

RUKO SDSplus drill bit with 4 points, 24x450mm, with maximum energy transfer.

Brand: Ruko

Reference: TUR 123241

The Ruko-123241 4-point drill bit, 24x450mm, is designed for efficient drilling in concrete. Its four cutting edges and special geometry allow for shorter drilling times, maximum energy transfer, and a low risk of breakage.

Description

The Ruko-123241 drill bit is specifically designed for drilling concrete, offering superior performance thanks to its innovative construction. With four cutting edges, this bit allows for more efficient and faster penetration into hard materials. Its special flute geometry facilitates the evacuation of drilling dust, optimizing feed and improving work efficiency. Furthermore, reduced vibration and low friction contribute to significantly shorter drilling times, enabling faster and more precise project completion. The reinforced core ensures maximum energy transfer, resulting in consistent and reliable performance. This drill bit is designed to minimize the risk of breakage, even when impacting reinforced concrete, making it an ideal tool for professionals and DIY enthusiasts.

- **Diameter:** 24 mm
- **Total Length:** 450 mm
- **Tip Type:** 4 cutting edges
- **Material:** High-strength steel
- **Flute Geometry:** Special for dust evacuation
- **Vibration Reduction:** Yes
- **Low Friction:** Yes
- **Core Reinforcement:** Maximum energy transfer
- **Risk of Breakage:** Minimal
- **Application:** Concrete and similar materials

Specifications

EAN	4007140395665
Manufacturer	Ruko
