

Product sheet

HM MPS 25 mm diameter hole saw for precise drilling.

Brand: MPS

Reference: TUR 73025M

The HM Series 73 MPS-73025M hole saw, with a 25 mm diameter, is designed for precise cuts in various materials. Its carbide construction ensures durability and efficiency in drilling operations. Ideal for professional use.

Description

The MPS-73025M HM Series 73 hole saw, with a 25 mm diameter, is a high-precision tool designed for cutting a wide variety of materials. Its carbide (HM) construction ensures exceptional durability and optimal performance, even under demanding working conditions. This saw is ideal for applications in wood, plastic, and composite materials, delivering clean and efficient cuts.

The 73 Series is distinguished by its innovative design, which allows for easy installation and precise adjustment in different types of drills. Its cutting geometry is optimized to reduce friction and heat, extending the tool's lifespan and improving the finish quality.

Furthermore, its compatibility with chip extraction systems facilitates a cleaner and safer working environment.

- **Diameter:** 25 mm
- **Material:** Carbide (HM)
- **Applications:** Wood, plastic, and composite materials
- **Design:** Optimized structure for clean cuts
- **Installation:** Compatible with different types of drills
- **Friction reduction:** Improves durability and performance
- **Chip extraction:** Facilitates a clean working environment
- **Finish:** High-quality cuts
- **Use:** Professional and DIY enthusiasts
- **Series:** 73

Specifications

EAN	4028655073008
Manufacturer	MPS
