

Product sheet

**HM MPS 73 mm diameter hole saw, 73 series, 32 mm depth.**

Brand: MPS

Reference: TUR 73032M

The HM Series 73 MPS-73032M hole saw, with a 32 mm diameter, is designed for precise cuts in various materials. Its carbide construction ensures durability and performance in demanding drilling applications. Ideal for professionals and hobbyists.

[View product online](#)**Description**

The MPS-73032M HM Series 73 hole saw, with a 32 mm diameter, is a high-precision tool designed for cutting a wide variety of materials. Its carbide (HM) construction ensures exceptional durability and optimal performance, even under demanding working conditions. This saw is ideal for applications in wood, plastics, and composite materials, delivering clean and efficient cuts.

The 73 Series is distinguished by its innovative design, which allows for easy installation and precise adjustment in different types of drills. Its cutting geometry is optimized to reduce friction and heat, extending the tool's lifespan and improving the finish quality.

Furthermore, its compatibility with chip extraction systems facilitates cleaner and safer work.

- **Diameter:** 32 mm
- **Material:** Carbide (HM)
- **Applications:** Wood, plastics, and composite materials
- **Design:** Optimized structure for clean cuts
- **Installation:** Quick and easy in various drills
- **Cutting Geometry:** Reduced friction and heat generation
- **Compatibility:** Chip extraction systems
- **Use:** Ideal for professional and DIY work
- **Durability:** High strength and long service life
- **Series:** 73
