Description

The MPS-75020-1 diamond hole saw is a high-precision tool designed to drill through hard materials easily and efficiently. With a 20 mm diameter, this saw is part of the 75 series, renowned for its durability and superior performance in professional applications. Its diamond structure allows for clean and precise cuts on a variety of surfaces, including ceramic, glass, and concrete, making it an ideal choice for construction and remodeling projects.

The MPS-75020-1 is designed to deliver optimal performance, minimizing wear and extending the tool's lifespan. Its ergonomic design facilitates handling, allowing for precise control during use.

This saw is compatible with most electric drills, making it versatile and easy to integrate into any tool kit.

- **Diameter:** 20 mm
- **Material:** High-quality diamond
- **Use:** Drilling in ceramic, glass, and concrete
- **Compatibility:** Compatible with most electric drills
- **Durability:** High wear resistance
- **Precision:** Clean and accurate cuts
- **Design:** Optimized ergonomics for better control
- **Series:** 75
- **Applications:** Construction and remodeling
- **Performance:** Efficiency in professional work
