Description

The Velamp-IS529 is a workshop lamp holder designed to provide practical and efficient lighting in environments such as garages, basements, workshops, and construction sites. Its portable design includes a switch for easy on/off operation, making it an essential tool for any DIY project. Equipped with an adjustable hook, this lamp holder can be hung in various positions, providing adequate illumination in hard-to-reach areas. Its E27 socket is compatible with bulbs up to 60W, offering flexibility in light source selection. The 10-meter-long neoprene cable, along with a 10A flat plug, ensures a safe and durable connection.
