Description

The ATEX STAK-FATEX01 flashlight is an essential tool for professionals working in high-risk environments such as refineries, oil platforms, chemical plants, and grain silos. Designed specifically for use in potentially explosive atmospheres, this flashlight complies with European ATEX regulations, ensuring safe lighting without the risk of sparks or heat sources. Its powerful 1W OSRAM LED provides 60 lumens of brightness with an effective range of up to 130 meters, making it a reliable choice for lighting in adverse conditions. The flashlight has an IP67 protection rating, ensuring its resistance to water and dust, allowing for use in various weather conditions. Furthermore, its tactile rubber switch makes it easy to operate, even while wearing gloves. It operates on 4 AA batteries, offering up to 14 hours of autonomy, making it ideal for long workdays.
