Description

The Velamp-SL247 TEGEL LED solar wall light in black combines a contemporary and refined design with advanced technology to offer efficient and sustainable lighting. Made of UV-resistant polycarbonate and ABS, this wall light is impact and weather resistant, thanks to its IP65 rating. Its electronics are designed to be water-resistant, making it an ideal choice for outdoor use. This device recharges using solar energy during the day, ensuring autonomous and eco-friendly operation.

The Velamp-SL247 has two operating modes: Automatic Mode 1, which turns on the light at 50% brightness for 5 hours at dusk and, when the battery drops below 30%, activates energy-saving mode, turning on at 100% brightness only with movement within a 6-meter radius; and Mode 2, which turns on at 100% brightness with movement and reduces the light to 5% after 20 seconds of inactivity.

Equipped with state-of-the-art SMD LEDs and a high-performance diffuser, it provides homogeneous light with a color temperature of 4000 K (neutral light).

- **Material:** Anti-UV polycarbonate and ABS
- **Protection:** IP65 (impact and weather resistant)
- **Operating modes:** Automatic and motion sensor
- **Brightness:** 50% for 5 hours, 100% with motion
- **Sensor range:** Up to 6 meters
- **Battery:** 3000 mAh Li-Ion
- **Autonomy:** Up to 2 or 3 nights depending on solar charge
- **Color temperature:** 4000 K (neutral light) neutral)
- **Dimensions:** 230 mm x 97 mm x 42 mm

- **Includes:** Plugs for easy fixing

Specifications

Colour	Black
EAN	8003910113558
Manufacturer	Velamp
