Description

The Velamp-REEL-DE-25 is a cable reel specifically designed for DIY and home use, offering a practical and safe solution for managing electrical cables. With a 3G1.5 mm² cable cross-section, this device guarantees optimal performance in various applications. Its design includes a safety switch that cuts off the power in case of overheating or overload, thus protecting both the equipment and the user. In addition, all sockets are equipped with child safety locks, preventing the insertion of foreign objects into the power outlets and increasing home safety. The Velamp-REEL-DE-25 also features a rotating rewind handle, facilitating cable storage and handling. The plugs and sockets are standard Schuko E type, ensuring compatibility in several European countries, including Germany, Austria, Scandinavia, the Balkans, Spain, Portugal, and the Netherlands. With GS certification and an IP20 rating, this cable reel is a reliable choice for those seeking quality and safety in their DIY projects.
