Description

The STAK-REELHD-DE-25 is a professional cable reel designed to meet the needs of users in gardening, DIY, construction, and professional work environments. This device features a 3G1.5 mm² H07RN-F neoprene cable, guaranteeing high resistance and durability under demanding conditions. Its design includes a safety switch that cuts off the power in case of overheating or overload, providing an additional layer of protection for the user and connected equipment.

Safety is a priority with the STAK-REELHD-DE-25, as all sockets are equipped with child safety locks, preventing the insertion of foreign objects into the power outlets. Furthermore, its rotating rewind handle and ergonomic grip allow for comfortable handling, even while wearing gloves.

The robust structure with a sturdy steel frame ensures the product's stability and durability, while the IP44 rating makes it water-resistant, ideal for outdoor use.
