Product sheet

SCHNEIDER AV control module 3 poles 200-500V G265/330

Brand: SCHNEIDER

Reference: IMPO LX1G3RLSEA

Control module for 200-500V electrical systems, designed for three-phase applications. Model G265/330 offers an efficient and reliable solution for power management in industrial facilities. Ideal for optimizing system performance and safety.

Description

The 200-500V Av 3P G265/330 Control Module is a device designed for the efficient management and control of electrical systems in industrial environments. This module allows for the monitoring and regulation of voltages in a range of 200 to 500 volts, ensuring safe and reliable operation. Its robust design and ability to operate under demanding conditions make it an ideal solution for applications requiring precise control and high availability. Equipped with advanced technology, this module ensures a rapid response to voltage variations, contributing to the protection of connected equipment and optimizing the performance of the electrical system.

- **Voltage Range:** 200-500V
- **Phases:** 3 phases
- **Model:** G265/330
- **Connection Type:** Quick and Secure Connection
- **Protection:** Overvoltage and Short Circuit
- **Dimensions:** Compact for easy installation
- **Operating Temperature:** Wide temperature range
- **Certifications:** Complies with international standards
- **Applications:** Ideal for industrial environments
- **Durability:** Robust construction for long life useful

Specifications

EAN	3606481946218
Manufacturer	Schneider
No. of poles	3P
Reference	SCHNEIDER LX1G3RLSEA

Nominal voltage (V)	500V
