Product sheet

SCHNEIDER control module 3 poles, 100-250V, model G400/500.

Brand: SCHNEIDER

Reference: IMPO LX1G3SKUEN

Control module for 100-250V electrical systems, designed for 3-phase applications. Compatible with G400 and G500 models, it offers an efficient energy management solution for industrial and commercial installations. Easy to install and operate.

Description

The 100-250V ES 3P G400/500 Control Module is a device designed for the efficient management of electrical systems in industrial and commercial environments. This module allows for the safe and reliable control of electrical loads, ensuring optimal performance in applications requiring precise energy management. Its robust design and ability to operate within a voltage range of 100 to 250V make it a versatile solution for various electrical configurations.

- **Operating Voltage:** 100-250V
- **Phases:** 3-phase
- **Model:** G400/500
- **Load Capacity:** Suitable for industrial applications
- **Protection:** Integration of electrical safety systems
- **Installation:** Easy mounting on electrical panels
- **Material:** Robust and durable construction
- **Compatibility:** Compatible with various control systems
- **Dimensions:** Compact to optimize space
- **Certifications:** Complies with electrical safety regulations

This module is ideal for those seeking a reliable and efficient solution for controlling electrical systems, ensuring safe and effective operation at all times.

Specifications

EAN	3606481946331
Manufacturer	Schneider
No. of poles	3P

Reference	SCHNEIDER LX1G3SKUEN
Nominal voltage (V)	250V
