

Product sheet

**CMD 10A 415V AC Switch - 10
amps, 415 volts, alternating
current.**

Brand: SCHNEIDER

Reference: IMPO A9E15121

The CMD 10A 415V AC is an electrical device designed for industrial applications. It offers a rated current of 10 amps and is compatible with 415-volt AC systems. Ideal for environments requiring reliable and safe performance.

[View product online](#)**Description**

The CMD 10A 415V AC is a device designed for industrial applications requiring precise and efficient AC current control. This model is characterized by its robustness and reliability, making it ideal for demanding work environments. Its compact design allows for easy integration into existing electrical systems, while its handling capacity of up to 10 amps at 415 volts ensures optimal performance in various configurations. The technology used in its manufacture guarantees a long lifespan and low maintenance, making it a preferred choice for professionals in the sector.

- **Nominal Voltage:** 415V AC
- **Nominal Current:** 10A
- **Current Type:** Alternating Current (AC)
- **Dimensions:** Compact for easy installation
- **Construction Material:** High strength and durability
- **Operating Temperature:** Suitable range for industrial environments
- **Certifications:** Complies with electrical safety regulations
- **Connectivity:** Compatible with standard electrical systems
- **Applications:** Ideal for industrial machinery and equipment
- **Maintenance:** Low maintenance requirements

Specifications

Rated current (A)	10
Curve	C
EAN	3606480376993
Manufacturer	Schneider
Reference	SCHNEIDER A9E15121

Nominal voltage (V)	415
