SCHNEIDER control module 4 poles 100-250V G115/225

Brand: SCHNEIDER

Reference: IMPO LX1G4QKUE

Control module for 100-250V voltages, model ES 4P G115/225. Designed for electrical applications, it offers reliable and efficient performance. Ideal for installations requiring precise power control in electrical systems.

Description

The 100-250V ES 4P G115/225 Control Module is a device designed for the efficient management of electrical systems in industrial and commercial environments. This module allows for the precise control and monitoring of electrical circuits, ensuring safe and reliable operation. Its compact and robust design facilitates integration into various types of control panels, optimizing space and improving the organization of the electrical system. With an operating capacity spanning a voltage range of 100 to 250V, this module is ideal for applications requiring flexibility and adaptability.

- **Operating Voltage:** 100-250V
- **Connection Type:** 4-pole
- **Model:** G115/225
- **Dimensions:** Compact for easy installation
- **Material:** Robust construction for industrial environments
- **Compatibility:** Suitable for various electrical systems
- **Safety:** Complies with electrical safety regulations
- **Temperature Range:** Operates in extreme conditions
- **Maintenance Ease:** Accessible design for quick inspections
- **Durability:** Long service life under normal conditions of use

Specifications

EAN	3606481946492
Manufacturer	Schneider
No. of poles	4P
Reference	SCHNEIDER LX1G4QKUE
Nominal voltage (V)	250V
