Product sheet

SCHNEIDER G265 4-pole 100-250V control module for efficient electrical management.

Brand: SCHNEIDER

Reference: IMPO LX1G4RKUEN

Control module for 100-250V voltages, model ES 4P G265/330. Designed for electrical applications, it offers reliable and efficient performance. Ideal for installations requiring precise power control in electrical systems.

Description

The 100-250V ES 4P G265/330 Control Module is a device designed for the efficient management of electrical systems in industrial and commercial environments. This module enables the safe and reliable control of electrical circuits, ensuring optimal performance in applications requiring precise power regulation. Its robust construction and compact design facilitate integration into control panels, while its ability to operate within a voltage range of 100 to 250V makes it versatile for various electrical configurations.

- **Operating Voltage:** 100-250V
- **Connection Type:** 4-pole (4P)
- **Dimensions:** Compact for easy installation
- **Material:** Robust construction for industrial environments
- **Operating Temperature:** Suitable range for various conditions
- **Certifications:** Complies with electrical safety regulations
- **Applications:** Ideal for controlling electrical circuits
- **Ease of Installation:** Design that allows for quick integration
- **Durability:** High resistance to wear and adverse conditions
- **Compatibility:** Compatible with standard electrical systems

Specifications

EAN	3606481946515
Manufacturer	Schneider
No. of poles	4P
Reference	SCHNEIDER LX1G4RKUEN
Nominal voltage (V)	250V
