Product sheet

SCHNEIDER G400 4-pole 200-500V control module for efficient electrical management

Brand: SCHNEIDER

Reference: IMPO LX1G4SLSEA

Control module for electrical systems, designed to operate within a voltage range of 200-500V. It features 4 poles and is compatible with G400 and G500 models, ensuring efficient and safe performance in various industrial applications.

Description

The 200-500V Av 4P G400/500 Control Module is a device designed for the efficient management of electrical systems in industrial and commercial environments. This module allows for the control and monitoring of voltages in a range of 200 to 500V, ensuring safe and reliable operation. Its compact and robust design facilitates integration into various electrical configurations, while its advanced technology ensures a rapid response to voltage variations. This product is ideal for applications requiring precise control and constant monitoring of the electrical network.

- **Voltage range:** 200-500V
- **Connection type:** 4-pole
- **Model:** G400/500
- **Dimensions:** Compact for easy installation
- **Material:** Robust construction for industrial environments
- **Protection:** Integrated overload protection system
- **Compatibility:** Suitable for various electrical applications
- **Monitoring:** Real-time control and monitoring functions
- **Installation:** Quick and easy, with clear instructions
- **Certifications:** Complies with electrical safety regulations

Specifications

EAN	3606481946447
Manufacturer	Schneider
No. of poles	4P
Reference	SCHNEIDER LX1G4SLSEA
Nominal voltage (V)	500V
