**ACTI9 4P 63A B 10kA Icu
automatic switch at 440V AC
50/60Hz**

Brand: SCHNEIDER

Reference: IMPO A9F93463

Acti 9 IC60L miniature circuit breaker, 4-pole, 63A, ideal for currents above 0.1A. Thermal-magnetic technology, breaking capacity up to 30 kA. Compatible with various voltages and designed for residential and small commercial environments.

[View product online](#)**Description**

The **ACTI9 IC60L 4P 63A B MINIATURE CIRCUIT BREAKER** is a miniature circuit breaker from the Acti 9 range, designed to provide effective protection in residential and commercial electrical installations. This device is ideal for applications with currents above 0.1 A, ensuring safe and reliable operation under various network conditions.

With a rated current of **63 A** and a **4-pole** design, the IC60L provides exceptional breaking capacity, reaching up to **30 kA** at 220–240 V AC and **15 kA** at 380–415 V AC. Its thermal-magnetic trip technology ensures a rapid response to overloads and short circuits, while its Category A utilization rating makes it suitable for demanding applications. This device features a contact position indicator and a DIN rail mounting system, facilitating its installation. Furthermore, its IP20 protection rating makes it suitable for environments with a pollution level of 3, guaranteeing its durability and reliability under adverse conditions.

- Rated current: 63 A
- Number of poles: 4P
- Breaking capacity: up to 30 kA
- Rated insulation voltage: 500 V AC
- Operating temperature: -35...70 °C
- Electrical durability: 10,000 cycles
- Mounting: DIN rail
- Protection rating: IP20
- Dimensions: 85 mm x 72 mm x 78.5 mm
- Weight: 0.5 kg

Specifications

Rated current (A)	63
Curve	B
EAN	3606480083853
Manufacturer	Schneider
No. of poles	4P
Reference	SCHNEIDER A9F93463
Nominal voltage (V)	440
