

Product sheet

SCHNEIDER iID 80A 30mA 4-pole differential switch for electrical protection.

Brand: SCHNEIDER

Reference: IMPO A9R11480

The iID 4P 80A 30 mA AC is a residual current device (RCD) designed to protect electrical installations. With four poles and a rated current of 80A, it offers a sensitivity of 30 mA, ensuring safety and reliability in electrical use.

Description

The iID 4P 80A 30 mA AC is an electrical protection device designed to ensure safety in electrical installations. This 4-pole residual current circuit breaker (RCCB) offers a high current rating of 80 amps and a sensitivity of 30 mA, making it an ideal solution for residential and industrial applications. Its compact and robust design allows for easy integration into electrical panels, ensuring efficient and reliable operation. This device is capable of detecting current leaks and automatically disconnecting the power supply, minimizing the risk of electrocution and damage to connected equipment.

- **Type:** Residual Current Circuit Breaker
- **Number of Poles:** 4
- **Rated Current:** 80 A
- **Leakage Current:** 30 mA
- **Rated Voltage:** AC
- **Frequency:** 50/60 Hz
- **Protection:** Against overloads and short circuits
- **Installation:** On DIN rail
- **Dimensions:** Compact for easy installation
- **Standards:** Complies with current electrical safety regulations

Specifications

Rated current (A)	80
Sensitivity	30 mA
EAN	3606480089374
No. of poles	4P
Reference	SCHNEIDER A9R11480
