

Product sheet

SCHNEIDER PowerTag switch up to 2000A 3 poles + neutral, compact and efficient.

Brand: SCHNEIDER

Reference: IMPO A9MEM1593

The PowerTag Rope is a current measurement device designed for electrical systems up to 2000A. Compatible with 3P/3P+N configurations, it allows for accurate and efficient energy monitoring, facilitating the management and analysis of electrical consumption.

Description

The PowerTag Rope up to 2000A 3P/3P+N is an energy measurement and monitoring device designed for industrial and commercial applications. Its advanced technology enables precise monitoring of electrical consumption, facilitating efficient energy management in large-scale installations. This device integrates easily into automation and control systems, providing real-time data that is essential for informed decision-making. Its robust and compact design ensures easy installation and a long service life, even in demanding environments.

- **Current capacity:** Up to 2000A
- **Phases:** 3P/3P+N
- **Connectivity:** Compatible with energy management systems
- **Real-time monitoring:** Precise data on consumption and demand
- **Installation:** Compact design for easy integration
- **Durability:** Robust construction for industrial environments
- **Interface:** Access via standard protocols
- **Compatibility:** Integration with existing automation systems
- **Safety:** Overload and short-circuit protection
- **Applications:** Ideal for industries, commercial buildings and data centers

Specifications

Rated current (A)	2000
EAN	3606481595317
No. of poles	3P
Reference	SCHNEIDER A9MEM1593
