

Product sheet

SCHNEIDER iC60 differential switch 25A 300mA 4 poles AC type.

Brand: SCHNEIDER

Reference: IMPO A9D55425

The iC60 4P RCBO 25A 300mA AC is an electrical protection device that combines a residual current device (RCD) and a circuit breaker. Designed to ensure safety in electrical installations, it offers protection against overloads and short circuits, guaranteeing efficient and safe operation.

Description

The iC60 4P RCBO 25A 300mA AC is an electrical protection device designed to ensure safety in electrical installations. This combination residual current device (RCBO) offers a comprehensive solution by combining the functions of a circuit breaker and a residual current protection device. Its compact and efficient design allows for easy integration into electrical panels, ensuring circuit protection against overloads, short circuits, and leakage current. With a rated current of 25A and a sensitivity of 300mA, this device is ideal for residential and industrial applications, providing a fast response to any electrical network anomaly.

- **Type:** RCBO (Combined Residual Current Circuit Breaker)
- **Poles:** 4P (Four Poles)
- **Rated Current:** 25A
- **Leakage Current:** 300mA AC
- **Rated Voltage:** 230/400V AC
- **Curve:** C (for inductive loads)
- **Dimensions:** Compact for easy installation
- **Certifications:** Complies with international safety standards
- **Operating Temperature:** -25°C to +60°C
- **Service life:** High durability and reliability

Specifications

Rated current (A)	25
Sensitivity	300 mA
Curve	C
EAN	3606481157782

No. of poles	4P
Reference	SCHNEIDER A9D55425
