

Product sheet

SCHNEIDER START button with stop function and 12V voltage, ideal for machinery control.

Brand: SCHNEIDER

Reference: IMPO XALD215

The Start/Stop button allows for easy initiation and stopping of processes. Its compact and functional design makes it ideal for a variety of applications. Compatible with multiple devices, it offers a practical solution for controlling operations in diverse environments.

Description

The Start/Stop button is a control device designed to facilitate the operation of machinery and electrical equipment. Its ergonomic and functional design allows for quick and safe activation and deactivation, making it an essential tool in industrial and work environments. This button is manufactured with high-quality materials that guarantee its durability and resistance to adverse conditions, ensuring optimal performance in various applications. Its installation is simple, allowing for quick integration into existing systems and improving operational efficiency.

- **Button Type:** Start/Stop
- **Material:** Durable plastic and metal
- **Dimensions:** 50 mm diameter
- **Operating Voltage:** 220V
- **Maximum Current:** 10A
- **Protection Rating:** IP65
- **Operating Temperature:** -20°C to 60°C
- **Installation:** Panel Mounting
- **Certifications:** CE, RoHS
- **Available Colors:** Red (Stop) and Green (Start)

Specifications

EAN	3389110114287
Reference	SCHNEIDER XALD215
Nominal voltage (V)	12V
