

Product sheet

SCHNEIDER iC60 16A 30mA 4-pole RCBO type differential switch.

Brand: SCHNEIDER

Reference: IMPO A9D67416

The iC60 4P RCBO 16A 30mA is an electrical protection device that combines a circuit breaker and a residual current device (RCD). Designed to ensure safety in electrical installations, it offers protection against overloads, short circuits, and current leakage.

Description

The iC60 4P RCBO 16A 30mA is an electrical protection device designed to ensure safety in residential and industrial electrical installations. This residual current device (RCD) combines the functions of a circuit breaker and an earth fault protection device, offering a comprehensive solution for electrical circuit protection. Its compact and efficient design allows for easy installation in electrical panels, ensuring optimal performance and a rapid response to overloads and short circuits. With a rated current capacity of 16A and a sensitivity of 30mA, this RCBO is ideal for protecting both people and electrical equipment from potential electrical hazards.

- **Type:** RCBO (Residual Current Circuit Breaker with Overload Protection)
- **Poles:** 4P (Four Poles)
- **Rated Current:** 16A
- **Leakage Current:** 30mA
- **Rated Voltage:** 230/400V
- **Curve:** C (for inductive loads)
- **Dimensions:** Compact, ideal for electrical panels
- **Installation:** Easy DIN rail mounting
- **Standards:** Complies with the IEC and EN regulations
- **Applications:** Residential and industrial

Specifications

Rated current (A)	16
Sensitivity	30 mA
Curve	C
EAN	3606481157614

No. of poles	4P
Reference	SCHNEIDER A9D67416
