

Product sheet

TEMPO receiver with remote control, 24-240VAC, static control.

Brand: SCHNEIDER

Reference: IMPO RE17LCBM

The TEMPO REPOS CON MAND, 24..240VAC ESTATICA is a device designed to control and manage electrical power in automation systems. It operates efficiently and adapts to various applications, guaranteeing stable and reliable performance.

Description

The TEMPO REPOS CON MAND, 24-240VAC STATIC is a device designed to offer precise and efficient control in automation and energy management applications. Its robust construction allows for reliable operation in industrial and commercial environments, ensuring a long lifespan and optimal performance. This unit is designed to operate within a voltage range of 24 to 240 VAC, making it versatile for various electrical configurations. Its design is geared towards facilitating installation and maintenance, ensuring that users can easily integrate it into their existing systems.

- **Voltage Range:** 24..240 VAC
- **Device Type:** Static
- **Applications:** Automation and Energy Management
- **Design:** Robust and Durable
- **Installation:** Simple and Quick
- **Maintenance:** Low Demand
- **Compatibility:** Integration with Existing Systems
- **Performance:** Optimal in Industrial and Commercial Environments
- **Safety:** Complies with Electrical Regulations
- **Dimensions:** Compact for Space Savings
