

Product sheet

SCHNEIDER iC60 32A 30mA 4-pole RCBO type differential switch.

Brand: SCHNEIDER

Reference: IMPO A9D67432

The iC60 4P RCBO 32A 30mA is an electrical protection device that combines a residual current device (RCD) and a circuit breaker. Designed to ensure safety in electrical installations, it offers protection against overloads, short circuits, and current leakage.

Description

The iC60 4P RCBO 32A 30mA is an electrical protection device designed to ensure safety in electrical installations. This combined residual current device (RCBO) offers a comprehensive solution by combining the functions of a circuit breaker and an earth fault protection device. Its compact and efficient design allows for easy integration into electrical panels, ensuring effective protection against overloads, short circuits, and leakage current. With a rated current of 32A and a sensitivity of 30mA, this device is ideal for residential and industrial applications, providing a fast response to any electrical system anomaly.

- **Type:** RCBO (Combined Residual Current Circuit Breaker)
- **Rated current:** 32A
- **Leakage current:** 30mA
- **Number of poles:** 4P (four poles)
- **Rated voltage:** 230/400V
- **Tripping curve:** C
- **Dimensions:** Compact for easy installation
- **Certifications:** Complies with international safety standards
- **Operating temperature:** -25°C to +60°C
- **Service life:** High durability and reliability

Specifications

Rated current (A)	32
Sensitivity	30 mA
Curve	C
EAN	3606481157645

No. of poles	4P
Reference	SCHNEIDER A9D67432
