

Product sheet

Multifunctional TEMPO with 12..240VAC/DC voltage and compact design.

Brand: SCHNEIDER

Reference: IMPO RE17RMMW

The TEMPO MULTIF.12..240VACDC REL is a multifunctional relay designed to operate within a voltage range of 12 to 240 VAC/DC. Ideal for industrial applications, it offers versatility and reliability in the control of electrical circuits.

Description

The TEMPO MULTIF.12..240VACDC REL is a multifunctional relay designed to offer a versatile solution for control and automation applications. This device enables the efficient management of electrical circuits, supporting a wide range of input voltages, from 12 to 240 volts AC and DC. Its compact and robust design facilitates integration into various industrial and commercial environments, ensuring reliable and long-lasting performance. Thanks to its advanced technology, the relay provides a fast and accurate response, making it an ideal choice for process control systems and building automation.

- **Input Voltage:** 12 to 240 VAC/DC
- **Relay Type:** Multifunctional
- **Load Capacity:** Suitable for various electrical applications
- **Design:** Compact and robust
- **Fast Response:** High control accuracy
- **Installation:** Easy integration into existing systems
- **Durability:** Built for long-term use
- **Applications:** Process control, building automation
- **Standards:** Complies with electrical safety standards
- **Connectivity:** Terminals easily accessible for quick connections

Specifications

Rated current (A)	5
EAN	3606480552762
Reference	SCHNEIDER RE17RMMW
