

Product sheet

SCHNEIDER 4-pole 160A 150kA AC cutting block for electrical protection.

Brand: SCHNEIDER

Reference: IMPO C16L4

The NSX160L 150kA AC 4P 160A Circuit Breaker is an electrical device designed to protect circuits in industrial installations. It offers a breaking capacity of 150 kA and features four poles, ensuring efficient and safe performance in high-demand applications.

Description

The NSX160L 150kA AC 4P 160A Circuit Breaker is an electrical protection device designed to ensure safety and efficiency in power distribution systems. With a breaking capacity of 150 kA, this device is ideal for industrial and commercial applications requiring precise and reliable electrical current control. Its compact and robust design allows for easy integration into electrical panels, optimizing space and facilitating maintenance. Furthermore, its 4-pole configuration makes it suitable for three-phase systems, ensuring balanced and effective protection.

- **Model:** NSX160L
- **Breaking capacity:** 150 kA
- **Current type:** AC
- **Number of poles:** 4P
- **Rated current:** 160 A
- **Dimensions:** Compact for easy installation
- **Applications:** Ideal for industrial and commercial environments
- **Protection:** Overload and short circuit
- **Certifications:** Complies with international standards
- **Accessories:** Compatible with a wide range of protective accessories

Specifications

Frequency	50/60 Hz
Rated current (A)	160
EAN	3606481999856
No. of poles	4P
Reference	SCHNEIDER C16L4
