Description

The KR Emergency Stop Button is a device designed to ensure safety in industrial and commercial environments. Its robust structure and ergonomic design allow for easy identification and access in emergency situations. This product is manufactured with high-quality materials that ensure its durability and resistance to adverse conditions. The button features an instant activation system that allows for the quick and efficient stopping of equipment and machinery, minimizing risks and potential accidents. Its installation is simple and it adapts to different types of electrical systems, making it a versatile solution for various applications.

- **Model:** KR
- **Button Type:** Emergency
- **Material:** Durable Plastic
- **Dimensions:** 120 x 80 x 60 mm
- **Operating Voltage:** 24V DC
- **Maximum Current:** 10A
- **Protection Rating:** IP65
- **Operating Temperature:** -20°C to 60°C
- **Color:** Red
- **Certifications:** CE, RoHS

Specifications

Rated current (A)	10
EAN	3389119048095
