Description

The PULS.LUM.LED.PULS-PULS GREEN NA 24V is an LED lighting device designed to offer optimal performance in applications requiring clear and efficient signaling. This model stands out for its high visibility and low energy consumption, making it an ideal choice for industrial and commercial environments. Its robust structure, resistant to adverse conditions, guarantees a long lifespan, while its compact design facilitates installation in various spaces. The green light emitted by this device is perfect for indicating operational status or guiding logistical processes.

- **Light Type:** Green LED
- **Operating Voltage:** 24V
- **Energy Consumption:** Low
- **Durability:** High resistance and long lifespan
- **Applications:** Industrial and commercial signaling
- **Installation:** Compact and easy to mount
- **Operating Temperature:** Wide operating range
- **Certifications:** Complies with safety regulations
- **Dimensions:** Optimized design for small spaces
- **Light Color:** Bright green
