

Product sheet

SCHNEIDER A-SI RCCB 4-pole 100A 30mA type IID differential switch.

Brand: SCHNEIDER

Reference: IMPO A9R31491

The RCCB_IID 4P 100A 30mA A-SI-typ is a 4-pole residual current circuit breaker (RCCB) designed to protect electrical circuits against current leakage. Its 100A capacity and 30mA sensitivity make it suitable for various residential and industrial applications.

Description

The RCCB_IID 4P 100A 30mA A-SI-typ is an electrical protection device designed to ensure safety in electrical installations. This 4-pole residual current device (RCD) is capable of detecting earth leakage currents, providing a rapid response to prevent the risk of electrocution and damage to equipment. Its robust and efficient design makes it an ideal solution for residential and industrial applications where the protection of people and equipment is paramount. With a rated current of 100A and a sensitivity of 30mA, this device meets the most demanding safety standards, ensuring reliable and long-lasting operation.

- **Type:** Residual Current Circuit Breaker (RCCB)
- **Number of poles:** 4
- **Rated current:** 100A
- **Leakage current:** 30mA
- **Protection against:** Electrocution and overloads
- **Applications:** Residential and industrial
- **Standards:** Complies with safety standards
- **Installation:** Easy mounting in electrical panels
- **Material:** High-quality components
- **Durability:** Robust design for a prolonged use

Specifications

Rated current (A)	100
Sensitivity	30 mA
EAN	3606480089725
No. of poles	4P

Reference	SCHNEIDER A9R31491
