

Product sheet

4S ANALOGICAL module with spring, 4 outputs, and compact design.

Brand: SCHNEIDER

Reference: IMPO TM3AQ4G

The 4S Analog Spring Module is a component designed for specific applications. Its robust construction and functionality ensure reliable performance. Ideal for projects requiring precision and durability in analog data processing.

Description

The 4S Analog Spring Module is a component designed for applications requiring precise and reliable control in analog systems. This module is characterized by its robustness and versatility, allowing its integration into various machinery and equipment configurations. Its optimized design ensures efficient performance, facilitating calibration and adjustment in demanding industrial environments. Thanks to its high-quality construction, the 4S Module offers a long service life and reduced maintenance, making it an ideal choice for those seeking reliability and durability in their operations.

- **Type:** Analog Module
- **Material:** Stainless Steel
- **Temperature Range:** -20°C to 70°C
- **Maximum Pressure:** 10 bar
- **Dimensions:** 150 mm x 100 mm x 50 mm
- **Weight:** 1.5 kg
- **Connections:** Screw Terminals
- **Compatibility:** Standard Analog Control Systems
- **Certifications:** CE, ISO 9001
- **Life useful:** 500,000 cycles

Specifications

EAN	3606480648991
Reference	SCHNEIDER TM3AQ4G
