

Product sheet

TEMPO ANALOG 24-240VAC/DC switch, versatile connection and easy installation.

Brand: SCHNEIDER

Reference: IMPO RE48AML12MW

The Tempo Analog Conexi is a versatile timer that operates in a 24 to 240 VAC/DC range. Ideal for time control applications, its design allows for easy integration into electrical systems, ensuring reliable and efficient operation.

Description

The UNDEC TEMPO ANALOG CONEXI?, 24-240VACDC is an analog timer designed for industrial and commercial applications requiring precise time control. This device allows for the programming of on/off cycles, facilitating process automation and efficient energy management. Its robust and versatile design makes it suitable for a wide range of environments, ensuring reliable performance under diverse conditions. With an intuitive interface, setting up the timer is simple, allowing users to quickly adapt it to their specific needs.

- **Voltage Range:** 24 to 240 VAC/DC
- **Timer Type:** Analog
- **Connection:** Direct connection to the mains power supply
- **Load Capacity:** Suitable for resistive and inductive loads
- **Time Interval:** Adjustable according to user needs
- **Dimensions:** Compact for easy installation in confined spaces
- **Material:** Robust construction for durability
- **Operating Temperature:** Wide temperature range for various environmental conditions
- **Certifications:** Complies with safety and quality standards
- **Applications:** Ideal for lighting control, heating and ventilation systems

Specifications

Rated current (A)	5 A
EAN	3389110649598
Reference	SCHNEIDER RE48AML12MW
Series	Solera Mural
