

Product sheet

ACTI 9 10A 300mA 1 pole type C differential switch for electrical protection.

Brand: SCHNEIDER

Reference: IMPO A9DE6610

The ACTI 9 iCV40 1PN C 10A 300mA AC RCBO is an electrical protection device that combines a residual current device (RCD) and a circuit breaker. Designed to ensure safety in electrical installations, it offers a rated current of 10A and overload protection.

Description

The ACTI 9 iCV40 1PN C 10A 300mA AC RCBO is an electrical protection device designed to ensure safety in residential and commercial electrical installations. This residual current device (RCD) combines the functions of a circuit breaker and an earth fault protection device, providing a comprehensive solution for electrical circuit protection. Its compact and efficient design allows for easy installation in electrical panels, optimizing space and improving the organization of the electrical system. With a rated current of 10A and a sensitivity of 300mA, this RCBO is ideal for applications requiring reliable and effective protection against overloads and short circuits.

- **Device Type:** RCBO (Residual Current Circuit Breaker with Overload Protection)
- **Rated Current:** 10A
- **Leakage Current:** 300mA AC
- **Phases:** 1 phase (1PN)
- **Overload Protection:** Yes
- **Short Circuit Protection:** Yes
- **Dimensions:** Compact for easy installation
- **Standards:** Complies with international safety standards
- **Applications:** Residential and Commercial
- **Brand:** ACTI 9

Specifications

Rated current (A)	10
Sensitivity	300 mA
EAN	3606489443863
No. of poles	1P

Reference	SCHNEIDER A9DE6610
