

Product sheet

NSX100-250 240mm connectors for safe electrical installations.

Brand: SCHNEIDER

Reference: IMPO LV429245

Set of four 240 mm connectors for the NSX100-250 INS model. Designed to ensure a safe and efficient connection in electrical applications. Manufactured with high-quality materials for optimal durability and performance in industrial environments.

Description

The connector 4 CONNECTORS (1X 240MM) The NSX100-250 INS is an essential component designed for industrial applications requiring a safe and efficient electrical connection. This connector is manufactured with high-quality materials that ensure durability and resistance to harsh conditions. Its compact design allows for easy integration into electrical systems, optimizing space and improving cable management. Furthermore, its current handling capacity makes it an ideal choice for equipment that demands reliable performance.

- **Model:** NSX100-250 INS/
- **Type:** 4-Way Connector
- **Length:** 240 mm
- **Material:** High corrosion resistance
- **Current Capacity:** Suitable for high-demand applications
- **Operating Temperature:** Wide range for diverse environmental conditions
- **Installation:** Quick and easy, no special tools required
- **Compatibility:** Designed for standard electrical systems
- **Certifications:** Complies with international safety standards
- **Recommended Use:** Industrial and commercial applications

Specifications

EAN	3606481274366
