

Product sheet

INV 18A 230V 50/60Hz Switch - high capacity and versatility in current.

Brand: SCHNEIDER

Reference: IMPO LC2D18P7

The INV 18A 230V 50 60HZ is a device designed to operate at 230 volts and frequencies of 50 to 60 Hz. Its robust construction ensures reliable performance in various electrical applications, ideal for domestic or industrial use.

Description

The INV 18A 230V 50/60Hz is a power inverter designed to deliver efficient and reliable performance in applications requiring high-quality power conversion. This device is ideal for use in renewable energy systems, such as solar panels, as well as in situations where a stable and continuous power source is needed. Its compact and robust design allows for easy installation and optimal operation in various environmental conditions. With an 18-amp capacity, this inverter ensures adequate power delivery for a variety of electrical devices.

- **Input Voltage:** 230V
- **Frequency:** 50/60Hz
- **Output Capacity:** 18A
- **Waveform:** Pure Sine Wave
- **Protection:** Overload, Short Circuit, and Overheating
- **Dimensions:** Compact for easy installation
- **Operating Temperature:** Wide range for diverse conditions
- **Certifications:** Meets safety and energy efficiency standards
- **Connectivity:** Versatile input and output ports
- **Applications:** Ideal for solar systems and power backup

Specifications

Rated current (A)	18
EAN	3389110386639
No. of poles	3P
Reference	SCHNEIDER LC2D18P7
Nominal voltage (V)	230V
