INV 25A 110VAC 50/60HZ switch with mechanical interlock and thermostat

Brand: SCHNEIDER

Reference: IMPO LC2D25F7

The INV 25A 110VAC 50/60HZ C/ENCL.MEC.S/TERM is a device designed to deliver efficient performance in electrical systems. Its robust construction and technical features ensure safe and reliable operation in a variety of industrial and commercial applications.

Description

The INV 25A 110VAC 50/60Hz C/ENCL.MEC.S/TERM is a device designed to deliver efficient performance in electrical applications requiring precise current control. This voltage inverter features a robust structure and mechanical design that ensures durability and reliability in demanding environments. Its ability to operate at 110VAC and its compatibility with 50/60Hz frequencies make it a versatile option for various electrical installations. Furthermore, its mechanical interlock system and integrated thermostat ensure safe and stable operation, protecting the equipment from overheating and overloads.

- **Input Voltage:** 110VAC
- **Rated Current:** 25A
- **Frequency:** 50/60Hz
- **Interlock Type:** Mechanical
- **Thermal Protection:** Yes, with integrated thermostat
- **Dimensions:** Compact for easy installation
- **Construction Material:** High resistance
- **Applications:** Ideal for residential and industrial electrical systems
- **Certifications:** Complies with electrical safety regulations
- **Warranty:** Technical support and warranty quality

Specifications

Rated current (A)	25
EAN	3389110386813
No. of poles	3P
Reference	SCHNEIDER LC2D25F7
