

Product sheet

INV 32A 48V 50/60HZ switch with high current capacity and adjustable voltage.

Brand: SCHNEIDER

Reference: IMPO LC2D32E7

The INV 32A 48V 50/60Hz is a power inverter designed for renewable energy applications. It offers efficient and stable performance, suitable for solar and wind power systems. Its compatibility with different frequencies makes it versatile for various installations.

Description

The INV 32A 48V 50/60Hz is a power inverter designed for applications requiring efficient energy conversion. This device is ideal for renewable energy systems, such as solar panels, and adapts to various electrical configurations. Its robust design and advanced technology ensure optimal performance, guaranteeing a stable and reliable power output. With a capacity of 32 amps, this inverter is capable of handling significant loads, making it a versatile option for residential and industrial users.

- **Input Voltage:** 48V DC
- **Output Frequency:** 50/60Hz
- **Current Capacity:** 32A
- **Efficiency:** High energy conversion efficiency
- **Protections:** Overload and short circuit protection
- **Dimensions:** Compact and lightweight for easy installation
- **Operating Temperature:** Wide range for diverse environmental conditions
- **Certifications:** Meets safety and quality standards
- **Connectivity:** Versatile inputs and outputs for different configurations
- **Applications:** Ideal for solar systems, batteries and other renewable energy sources

Specifications

Rated current (A)	32
EAN	3389110391473
No. of poles	3P
Reference	SCHNEIDER LC2D32E7
Nominal voltage (V)	48V
