

Product sheet

ACTI9 40A 30mA 1 pole ASI differential switch for electrical protection.

Brand: SCHNEIDER

Reference: IMPO A9R83640

The ACTI9 iID40 1PN 40A 30mA ASI RCCB is a residual current device (RCD) designed to protect electrical installations. It offers a rated current of 40A and a sensitivity of 30mA, ensuring safety and reliability in everyday use.

Description

The ACTI9 iID40 1PN 40A 30mA ASI RCCB is an electrical protection device designed to ensure safety in residential and industrial electrical installations. This residual current circuit breaker (RCCB) offers effective protection against electric shocks and fires caused by insulation faults. With a rated current of 40A and a sensitivity of 30mA, the ACTI9 iID40 is ideal for applications requiring a rapid response to current leakage, thus ensuring the safety of people and connected equipment. Its compact and robust design allows for easy installation in electrical panels, optimizing space and facilitating maintenance. Furthermore, its advanced technology guarantees reliable and long-lasting operation under various operating conditions.

- **Device Type:** RCCB Residual Current Circuit Breaker
- **Rated Current:** 40A
- **Sensitivity:** 30mA
- **Poles:** 1 phase (1PN)
- **Protection Against:** Electric shocks and overloads
- **Standards:** Complies with electrical safety regulations
- **Installation:** Easy mounting in electrical panels
- **Dimensions:** Compact to optimize space
- **Durability:** High resistance and reliability
- **Applications:** Residential and industrial

Specifications

Rated current (A)	40
Sensitivity	30 mA

EAN	3606481356727
No. of poles	1P
Reference	SCHNEIDER A9R83640
