

Product sheet

SCHNEIDER A9 differential switch 40A 30mA 3 pole type RCBO.

Brand: SCHNEIDER

Reference: IMPO A9DF3740

The A9 iCV40N 3PN C 40A 30mA ASI RCBO is an electrical protection device that combines a residual current device (RCD) and a circuit breaker. Designed for industrial and commercial applications, it offers protection against overloads and short circuits, ensuring efficient and safe operation.

Description

The A9 iCV40N 3PN C 40A 30mA ASI RCBO is an electrical protection device designed to ensure safety in electrical installations. This residual current device (RCD) combines overload and short-circuit protection functions with earth leakage detection, making it a comprehensive solution for electrical circuit protection. Its compact and efficient design allows for easy integration into electrical panels, ensuring optimal performance in various residential and industrial applications.

- **Type:** RCBO (Residual Current Circuit Breaker with Overload Protection)
- **Poles:** 3 phases + neutral (3PN)
- **Rated current:** 40A
- **Leakage current:** 30mA
- **Curve:** C, suitable for inductive loads
- **Protection:** against overloads and short circuits
- **Installation:** on DIN rail, facilitating its mounting
- **Standards:** complies with international electrical safety regulations
- **Dimensions:** compact design to optimize space in the electrical panel
- **Applications:** ideal for residential and industrial use

Specifications

Rated current (A)	40
Sensitivity	30 mA
Curve	C
EAN	3606481328892
No. of poles	3P+N
Reference	SCHNEIDER A9DF3740
