

Product sheet

SCHNEIDER ETH/MODBUS TCP/IP communication module with Ethernet connection and Modbus protocol.

Brand: SCHNEIDER

Reference: IMPO TPRBCEIP

The Eth/Modbus TCP/IP communication module enables the efficient integration of devices into industrial networks. It facilitates data transmission between systems, ensuring stable and fast communication. Ideal for applications requiring interoperability in automated environments.

Description

The Eth/Modbus TCP/IP Communication Module is an advanced solution designed to facilitate integration and communication between devices in industrial and automation environments. This module enables data transmission over Ethernet networks using the Modbus TCP/IP protocol, ensuring efficient and reliable communication. Its compact and robust design makes it ideal for applications requiring high performance and easy installation. Furthermore, its compatibility with a wide range of devices ensures its versatility in diverse system configurations.

- **Supported Protocols:** Modbus TCP/IP
- **Connectivity:** Ethernet 10/100 Mbps
- **Power Supply:** 24 VDC
- **Operating Temperature:** -20°C to 70°C
- **Dimensions:** 100 x 75 x 25 mm
- **Weight:** 200 g
- **Inputs/Outputs:** 8 digital inputs, 4 analog outputs
- **Certifications:** CE, RoHS
- **Configuration:** Via web interface
- **Compatibility:** Modbus devices and SCADA systems

Specifications

EAN	3606489832704
