Product sheet

Automatic switch INV 25A 4 poles 230V 50/60Hz

Brand: SCHNEIDER

Reference: IMPO LC2DT25P7

The INV 25A AC1 4P 230V 50 60HZ is a power inverter designed for electrical applications. It offers a capacity of 25 amps and is compatible with 230-volt systems, operating at frequencies of 50 and 60 hertz.

Description

The INV 25A AC1 4P 230V 50/60Hz is a device designed to deliver optimal performance in AC electrical applications. This voltage inverter is characterized by its robustness and reliability, making it ideal for industrial and commercial environments where precise power control is required. Its compact design allows for easy installation and maintenance, while its ability to operate at different frequencies makes it versatile for various electrical configurations. This model is equipped with advanced technology that guarantees superior energy efficiency and a long lifespan.

- **Device Type:** Voltage Inverter
- **Rated Current:** 25A
- **Phases:** 4P (four poles)
- **Operating Voltage:** 230V
- **Frequency:** 50/60Hz
- **Dimensions:** Compact for easy installation
- **Applications:** Ideal for industrial and commercial environments
- **Energy Efficiency:** High efficiency for lower consumption
- **Durability:** Robust construction for a long lifespan
- **Certifications:** Complies with electrical safety regulations

Specifications

Rated current (A)	25
EAN	3389110245233
No. of poles	4P
Reference	SCHNEIDER LC2DT25P7
Nominal voltage (V)	230V
