Product sheet

SCHNEIDER MULTI9 switch, 100-415VAC, 110-130VDC, high reliability.

Brand: SCHNEIDER

Reference: IMPO M9A26946

The MULTI9 MX OF 100-415VAC 110-130VDC DECL is a device designed for the protection and control of electrical circuits. It offers versatility in its use, adapting to different voltages and conditions, guaranteeing safe and efficient operation.

Description

The MULTI9 MX OF 100-415VAC 110-130VDC DECL is a device designed to provide efficient protection and control in electrical systems. This equipment is characterized by its ability to operate across a wide voltage range, making it a versatile solution for various industrial and commercial applications. Its robust and reliable design ensures optimal performance, even under adverse conditions, guaranteeing the safety and continuity of the power supply. Furthermore, its installation is simple, facilitating its integration into existing systems.

- **Voltage Range:** 100-415VAC and 110-130VDC
- **Device Type:** Circuit Breaker
- **Protection:** Overload and Short Circuit
- **Dimensions:** Compact for easy installation
- **Standards:** Complies with international safety standards
- **Operating Temperature:** Wide range for extreme conditions
- **Connectivity:** Easily accessible terminals
- **Indicators:** LED indicator for operating status
- **Applications:** Ideal for industrial and commercial environments
- **Durability:** High-strength materials

Specifications

EAN	3606480639074
Reference	SCHNEIDER M9A26946
