

Product sheet

UAT 24V security module with screw and category 4 for high security.

Brand: SCHNEIDER

Reference: IMPO XPSUAT13A3AP

UAT Cat.4 safety module, designed for 24V systems. This component features a screw-mounting system, ensuring a secure and efficient installation. Ideal for applications requiring high standards of safety and reliability.

Description

The UAT Cat.4 24V screw-type safety module is a device designed to ensure maximum safety in industrial and automated applications. This module complies with functional safety regulations, providing a Cat.4 protection level according to ISO 13849-1. Its robust design and easy integration into existing systems make it an ideal solution for environments requiring a high degree of reliability and operational safety. With a 24V power supply, this module is compatible with a wide range of control and automation systems, facilitating its implementation in diverse applications.

- **Product Type:** Safety Module
- **Category:** Cat.4
- **Power Supply:** 24V DC
- **Connection:** Screw
- **Standard:** ISO 13849-1
- **Dimensions:** Compact for easy installation
- **Operating Temperature:** -10°C to +55°C
- **Protection Rating:** IP20
- **Certifications:** Complies with international safety standards
- **Applications:** Industrial automation and control systems

Specifications

EAN	3606489601690
Reference	SCHNEIDER XPSUAT13A3AP
Nominal voltage (V)	24V
