Product sheet

SCHNEIDER C60N 1-pole, 4A switch, UL1077 protection, compact and efficient.

Brand: SCHNEIDER

Reference: IMPO M9F22104

The C60N UL1077 1P C 4A Box is a single-pole circuit breaker designed to protect electrical circuits. With a 4-amp capacity, it offers safety and reliability in electrical installations, complying with current regulations.

Description

The C60N UL1077 1P C 4A Box is an electrical protection device designed to ensure the safety and proper functioning of electrical installations. This single-pole circuit breaker is ideal for residential and industrial applications, providing an effective solution for overload and short-circuit protection. Its compact design allows for easy integration into electrical panels, while its 4-amp capacity makes it suitable for a variety of circuits. Manufactured with high-quality materials, the C60N UL1077 ensures a long service life and reliable performance under demanding conditions.

- **Type:** Single-pole circuit breaker
- **Standards:** Complies with UL1077
- **Rated current:** 4 A
- **Rated voltage:** 230/400 V
- **Protection:** Overload and short circuit
- **Mounting:** DIN rail
- **Dimensions:** Compact for easy installation
- **Material:** Durable plastic and high-quality components
- **Operating temperature:** -25°C to +60°C
- **Certifications:** Certified to standards international

Specifications

Rated current (A)	4
Curve	C
EAN	3606481168245
No. of poles	1P
Reference	SCHNEIDER M9F22104
