Product sheet

SCHNEIDER C60N 2-pole, 1A switch, UL1077 protection, compact and efficient.

Brand: SCHNEIDER

Reference: IMPO M9F22201

The C60N UL1077 2P C 1A Box is an electrical protection device designed for industrial applications. It offers safety and reliability features, ensuring optimal performance in demanding environments. Its compact design facilitates installation in various electrical systems.

Description

The C60N UL1077 2P C 1A Box is an electrical protection device designed to ensure the safety and proper functioning of electrical circuits in various applications. This double-pole (2P) circuit breaker offers a rated current capacity of 1A, making it an ideal choice for protecting electrical equipment and systems from overloads and short circuits. Its compact and robust design allows for easy installation in electrical panels, ensuring efficient integration into any environment. With a Type C rating, this device is suitable for applications requiring a fast response to overloads, providing reliable and long-lasting protection.

- **Model:** C60N UL1077 2P C 1A Box
- **Type:** Double Pole (2P) Circuit Breaker
- **Rated Current:** 1A
- **Rating:** Type C
- **Protection:** Against overloads and short circuits
- **Installation:** Easy mounting in electrical panels
- **Dimensions:** Compact and efficient
- **Standards:** Complies with UL1077
- **Applications:** Ideal for electrical equipment and low-voltage systems
- **Durability:** Robust design for prolonged use

Specifications

Rated current (A)	1
EAN	3606481168450
No. of poles	2P
Reference	SCHNEIDER M9F22201
