Description

The FDM 121 Display is a visualization module designed for industrial and automation applications. Measuring 96 x 96 mm, this device offers a clear and easy-to-read interface, ideal for process monitoring and control. Its robust and functional design allows for easy integration into control panels, ensuring efficient operation in demanding environments. The screen features advanced display technology that ensures excellent readability under various lighting conditions.

- **Dimensions:** 96x96 mm
- **Screen Type:** FDM (Dot Matrix Display)
- **Resolution:** High definition for clear viewing
- **Connectivity:** Multiple communication options for versatile integration
- **Power:** Compatible with various power sources
- **Operating Temperature:** Wide range for extreme conditions
- **Protection:** IP rating for dust and water resistance
- **Installation Ease:** Modular design simplifies assembly
- **Compatibility:** Supports multiple industrial communication protocols
- **Durability:** robust for prolonged use

Specifications

EAN	3606480025389
Reference	SCHNEIDER TRV00121
Series	Solera Mural
